Present: Scott Lindell, JoAnn Fishbein, Tim Shea, Chris McGuire, Clifford Harris, Ed Gross, Ben Harden, Ted Rowan, Pamela Rothstein
At 7:05 Scott called the meeting to order.

Public Comment
Jane Perry expressed thanks that the Committee had altered its focus to include pedestrians. She expressed concern about bicycles on the sidewalks and recommended educating bicyclists to notify when passing or to get off of the bicycle to pass.

Minutes from previous meeting
JoAnn moved to approve the minutes of 5/8/19. Tim seconded. All in favor; motion passed.

Friends of Falmouth Bikeways
Patti Johnson reported that the Friends have placed flowers along the bikeway at the North End and by Depot Avenue. 3,000 brochures have been printed. Art work is to be installed behind Wood Lumber. She urged consideration of an art corridor along the bikeway between Locust Street and Depot Avenue. Patti suggested that this might be done in conjunction with the Arts Center, allowing them to jury work to be displayed.

Bike Lab
Ben reported that the Lab has given 30 bikes in the last 2 weeks to J1 workers. Patti offered Safety Vests from the FFBW to be handed out with the bikes to improve visibility of the workers at night. Ben reported more bikes are needed. Committee members suggested seeking help from the business community. The Lab was encouraged to keep data about which businesses utilize their services.

Bike to Work Day/Week retrospective
43 people stopped including 38 cyclists and 5 walkers. Next year the committee thought it would be good to survey at another location such as town hall or the intersection of TerHeun and 28.

Review of MassBike Director meeting with DPW
Galen Mook, the director of MassBike met with Scott and members of the DPW. He suggested use of temporary signs for speed control. The committee discussed the start of a chapter for MassBike on the southcoast and taking efforts to reactivate a Cape Cod chapter of MassBike.

Complete Streets policy
Galen encouraged pursuing a Complete Streets policy. There seems to be a difference of opinion on the value of Complete Streets among town departments.
Rt. 28/Main St. re-design plans
Scott has sought a meeting with Ray Jack. The wish is for the multi-use path on 28 to be continued past Oxbow Rd as far as Main St, separated by bollards or something similar. Consideration for the whole network should be given.

Update re DPW plans- road works and SSBW safety maintenance
Repaving repairs are being done on several sections of the bikeway.

Safety vest campaign
A second round of vests is being done. Pamela will do a round of publicity.

Benches
Ted volunteered to survey benches along the bikeway and identify potential locations for new benches.

New bike parking signs, new rack (Maravista) and kiosk (WH)
Scott noted there are still a few bike racks that need to be approved. The kiosk at Locust Street has been repaired and the Falmouth Education Foundation covered the costs to Bob Porter of Lawrence School. The Woods Hole Kiosk has been completed but not yet installed in Woods Hole while work continues at the ferry station. Members suggested temporarily placing the kiosk at its old location at the north end of the parking lot.

Church of Messiah connector in WH
The committee wondered if the area was too steep for a connector.

Future Agenda items:
CPC application status – N. Falmouth Extension
ADA audible crosswalks at Locust St. and Goodwill Crossing
Trunk River & SSBW washout repair
Goodwill Crossing
Gifford St. crosswalk at Goodwill Park
Shore St./Surf Drive intersection re-design
Summer Ride
Art Corridor

At 8:36 Ed moved to adjourn. JoAnn seconded.
